

INTRODUCING

THE **SEA MONSTER™**

THE WAITING IS OVER.

Up to twice as fast as any other single-motor boatlift drive on the market, the SeaMonster SL 1024 and SL 1027 offer revolutionary new technology that makes the drive much faster, much smoother, and much easier to customize.

The box and all of its components are industrial grade, the highest quality on the market, so not only is it extremely fast, it's remarkably durable.

It'll make you wonder what everybody else is waiting for.

THE SEAMONSTER SL 1027 AT A GLANCE

(DON'T BLINK.)
