

INTRODUCING

SELF-LEVELING SPEED LIFT CONTROLLERS

THE WAITING IS OVER.

Get out on the water up to twice as fast with a SeaMonster LSL-2024 or LSL-2026 self-leveling boatlift controller. This revolutionary new technology makes your new or existing boatlift system much faster, smoother and easier to control and customize.

The SeaMonster controller represents such a quantum leap in boatlift systems, it will make you wonder what everybody else is waiting for.

Two-Motor Models Available:

LSL-2024:
Up to 1 hp motors

LSL-2026:
Up to 1.5 hp motors

HIGH-SPEED BOATLIFT CONTROLLER

PORTCO MARINE™
PATENT PENDING

THE SEAMONSTER SPEED LIFT CONTROLLER AT A GLANCE (DON'T BLINK)

- 50-100% increase in self-leveling two-motor boatlift speed
